The new thesaurus contains approximately 2,600 terms arranged alphabetically.

Whether you're a linguistics researcher, a student of linguistics, or an informational professional, you'll find the new LLBA thesaurus an indispensable tool for all your

• Each entry is displayed with its broader, narrower, and/or related terms.

research needs.

- Scope Notes delimit the senses of terms utilized by the thesaurus for search and retrieval purposes.
- History Notes indicate dates when terms are added or deleted and link current variants with those used in previous systems.
- "Use" and "Use For" entries provide numerous look-ups pointing to the most precise and specific descriptors for the topics at hand.

The thesaurus is the last word for successful and cost-effective forays into the literature of linguistics and language research.
